- Different parts of the human and animal body
- Learning about the five 'Senses'
- Classifying animals by characteristics.

**AT HOME** you could:

- Plant a sunflower seed and watch it grow....and measure its final height.

## International Primary Curriculum ( IPC)

The International Primary Curriculum ( IPC) is a 21<sup>st</sup> century curriculum which extends children's knowledge, skills and understanding in subjects by developing personal attributes and supporting an international perspective in a way that responds to the changing world around us. IPC is an internationally-minded curriculum which is used in over 60 countries.

By using IPC we are able to nurture a love of learning and encourage the necessary key skills and personal qualities; such as team work, research and creativity, flexibility and thoughtfulness which will help children to become able and inspired learners. In addition to this, children will extend their knowledge and understanding of communities beyond that of our own country by exploring many aspects of other societies and ways of living.

. **This term's topic is: 'Our World'**
