

Year 2

Here are some basic computer keys to help you with your writing. I have also shown you how to use an underscore key so that you can type in your Scholastic user names and pass words already emailed to you on purple mash.

## Basic computer keys

Press once to turn the capital letters on. Press again to turn it off.

fingerspace

full stop

Hyphen -  
Underscore \_  
Press shift and this button to get the underscore.

Delete by tapping this key.

press shift and this key for a ?

Press shift and any number button lets you use the punctuation on that key.
