

Tuesday Maths Activity

Counting practice

- Take a cup and some coins. You need about ten.

- Ask your child to sit facing away from you and the cup.
- One at a time, drop coins into the cup.
- the child has to listen and count.
- When you stop, they must tell you how many coins are in the cup. (This is harder than it sounds!)
- Repeat several times. Can they be correct three times in a row?

Challenge: What would one less be? One more be?
